DRINK SILENT TOAST TO DEAD BOB BURMAN

Members of Philadelphia Motor Speedway Association Honor Racing King at Ebbitt Banquet.

"Contests of skill, whether by automo-bile, baseball, football, or polo afford the keenest enjoyment to the American public," declared C. E. Miller, who pre-sided at the banquet of the Philadeiphia Motor Speedway Association, held last night at the New Ebbitt.

night at the New Ebbitt.

The affair was a get-together meeting of the Washington members of this association to put them in touch with what was going on in the way of building the speedway and the time set for the first motor event. October 7 has been named as the date for the opening of the course, and Fred Wagner, of the American Automobile Association, who was among the speakers, assured those present that the attraction would include the representative drivers of motor racing cars in this country.

Miller, C. H. Hower, Fred Wagner, E. C. Hutchinson, of New Jersey; A. J. Stiner, of Philadelphia; and Perry Shannon, of

Pittsburgh.

Before the banquet broke up a silent coast was drunk to Bob Burman, premier of racing drivers, killed last Saturday at Coronado, Cal.

Those present were:
Charles L. Hower, Philadelphia, secretary and treasurer; Perry A. Shanor,
Pittsburg, director; Claude E. Miller,
vice president; Arthur Stanley Zell, Baltimore, director; Fred J. Wagner, New timore, director; Fred J. Wagner, New York City, director of events; Represen-tative E. C. Hutchinson, New Jersey; A. J. S. Moore, E. Volgt, jr., chairman committee; J. J. Haas, A. L. Leeth, H. E. Huntsberry, Lieut. A. Von Steinner Golti, Jacob Baumgarten, Robert Grier, Arthur Foraker, I. T. Donohoe, H. L. Frensdorf, A. W. Leonard, H. E. French, C. A. Lores Howard S. Fish, P. Transi Frensdorf, A. W. Leonard, H. E. French, C. A. Jones, Howard S. Fisk, E. B. Terry, S. S. Grogan, M. W. Bethlehem Steel Profits and Policies in Armor Contracts

To the Members of Congress:

The Bethlehem Steel Company is solicitous that its position with reference to armor contracts with the United States Government be clearly understood. Essential facts are:

We are urging no plan of preparedness. We have advocated no policy involving increased expenditures by the Government for any purpose.

We are attempting to show, in the frankest and most oven manner, that it would be una for the Nation to spend \$11,000,000 to build a Government armor plant, because:

Existing facilities can supply every need, and, The Government can buy armor at least as cheaply as it can manufacture it for itself.

Second If the United States should become involved in war or threatened war, the Government of this country can have any product we manufacture—armor plate or anything else—at any price it chooses to pay; and under such circumstances, and regardless of price, our entire plant will run 24 hours a day with every pound of energy behind it.

It has been stated that this Company has realized enormous profits from the manufacture of armor plate. The fact is that armor is the least profitable article we manufacture.

In our armor plant—which is uscless for any other purpose—we have invested \$7,100,000.

That same amount of money invested in a steel rolling mill would have carned profits of \$1,400,000 a year.

Yet, that investment in armor plant has produced only average annual gross receipts of \$1,412,993

IN OTHER WORDS, THE SAME AMOUNT INVESTED IN A COMMERCIAL PLANT WOULD HAVE PRODUCED AS MUCH PROFIT AS THE TOTAL RECEIPTS (COVERING EXPENSES AND PROFIT) FOR ARMOR SUPPLIED TO THE GOVERNMENT.

Fourth The profits realized by this Company in 1915 were not from armor plate.

Our total sales in 1915 were about \$200,000,000, of which the greas amount received for armer plate amou

At the present time we can obtain in Europe almost any price we choose to ask for our products; but we have not since the war began raised the price for any ordnance products to the American Government.

We now offer to reduce the price of armor plate for the United States from \$425 to \$395 a ton. The price paid now-\$425 a ton-is less than that paid by any great naval power.

It is said that if our offer is accepted, and the Government plant not built, the price of armor will soon begin "soaring." That there is no danger of any such contingency, and as an earnest of our policy-

We will agree to make armor at the reduced price named, for at least five years; or

We will agree for an indefinite period to make armor at any price which the Federal Trade Commission may name as fair.

CHAS. M. SCHWAB, Cheirman EUGENE G. GRACE, President Bethlehem Steel Company

The thought was expressed during a discussion of the opera "Martha," which the society is rehearsing for production in May. Dr. Hickling touched upon the
